DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7, 9-27 are allowed.

The following is an examiner's statement of reasons for allowance: Maxwell US 6 139 738 teaches a retaining device integral with a second end cap that projects outwardly therefrom, Cline et al. US 6 572 768 teaches an orientation device integral with a first end cap that projects radially outward therefrom, and Brown US 5 803 024 teaches a vent orifice in a first end cap spaced radially outward from a sealing device. It would not have been obvious to one of ordinary skill in the art to use the retaining device of Maxwell with the orientation device of Cline because the retaining device of Maxwell does not allow for independent rotation, with respect to the housing, of the filter element. Also, it would not have been obvious to use an orientation device or a retaining device with the filter of Brown because there is no need.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

2. Applicant's arguments, see page 2 paragraph 2, filed 9/24/07, with respect to claims 1-16, 18, 20 and 22 have been fully considered and are persuasive. The rejection of claims 1-16, 18, 20 and 22 has been withdrawn.

Conclusion
